REMARKS

Applicant would like to thank Examiner Laufer for a telephone conference indicating the Supplemental Declaration was allowed and that there were minor non-compliant issues with the most recently filed amendment.

Additionally, applicant wishes to thank Examiner Paula for his detailed review and directions on the amendment to the current claims. Examiner Paula has correctly noted a typographical error in retyping the original Claim 4 in inadvertently adding "clock" instead of the correct issued patent terminology of "timer." This issue has now been corrected by using "timer" in Claim 4 at the current line 18.

The desired changes to the reissued claims was to substitute "recording medium" for -- disk -- and to remove the term -- successively -- as an unnecessary limitation on certain claims.

The terminology "timer" was not at issue nor the equivalent use of the term "clock."

Applicant has now corrected the amendment to reflect changes to the original patented claims rather than the previous amendments.

Applicant surrendered the original Grant Deed for US Patent No. 5,767,845 to the USPTO on September 23, 2002.
